The goal of this program is to provide students with practical “hands-on” work experience in order to learn a variety of skills associated with animal husbandry and management. The internship runs from May 15, 2020 to July 24, 2020 and the Department of Animal Science and Office of Academic Programs is providing up to two A.S. degree (Ratcliffe Hicks) and up to four B.S. degree (4 yr.) internships at the ANSC animal units.

Animal Science majors will have priority; selection will be on a competitive basis. Open only to students who have earned 24 or more credits at UConn. Students selected for this special program will be employed and will have the opportunity to earn up to $3,465 (max. 31.50 hrs./week) for a total of 10 weeks (split between two ANSC animal units; 5 consecutive weeks at each unit). Students will need to work evenings and weekends. Students may also have the opportunity to enroll in ANSC 3691 or SAAS 291 for credit or ANSC 3681 or SAAS 281 for zero credit.

If you are interested in participating in this internship opportunity, visit www.animalscience.uconn.edu or contact Dr. Robert Milvae (George White Building Rm. 201; 486-1065; Robert.Milvae@uconn.edu) for details on the program.
