

UConn Horse Barn Biosecurity Rules

These rules are in place when the Horse Barn Manager, the Department Head, and the Tufts veterinarian warrant the need for increased measures.

1. All clothes (including jackets, breeches, and gloves) must be washed prior to entering a UConn barn or coming on to UConn property. No clothes that have been at other barns may be worn if they have not been laundered.
2. All helmets, boots, and equipment (e.g. polo mallets, whips/crops) must be rid of dirt, debris, and manure and then wiped or sprayed with Lysol prior to use or coming in contact with a horse.
3. Anyone entering the barns or arena **MUST** walk through the disinfectant mats. Pause and stand on the mats for a few moments to let the disinfectant work. Only enter or exit the barns where these mats are present.
4. If possible, please enter the UConn barn before visiting other horse barns.

Anyone that does not follow these rules will be immediately asked to leave the premises and will forfeit the opportunity to ride and/or work with the horses at UConn. This includes visitors and individuals attending events held at UConn.
