Graduate Student Research Position in Food Microbiology and Safety (M.S.)

The D’Amico Food Microbiology Laboratory in the Department of Animal Science at the University of Connecticut is seeking one or more M.S. level graduate students to start in the Fall 2021 semester. Our laboratory currently focuses on enhancing the quality and safety of milk and dairy products.

We are seeking highly motivated individuals with either B.S. or M.S. degrees in food science and food microbiology or a related scientific field. Priority will be given to individuals with prior research experience or related professional experience. The ideal candidate must have a strong work ethic, be able to work independently and in a group setting, and have excellent written and oral communication skills.

The preferred application submission date is January 1 and the application submission deadline is June 1 for a Fall 2021 start. Interested applicants that meet the basic requirements of The Graduate School at the University of Connecticut are encouraged to send a cover letter outlining their research experience and what interests them in our work as well as a current copy of their CV to Dennis D’Amico (ddamico@uconn.edu).

Additional information about our graduate program can be found here:
