

ANSC 5694: ANIMAL SCIENCE SEMINAR SERIES

FALL 2017

George White Building, Room 209

Fridays at 12:20 PM

SEPT 1

Students meet with Dr. Amalaradjou (George White Room 103)

SEPT 8

Dr. Sarah Reed, Assistant Professor
Department of Animal Science, UConn

"Regulation of muscle growth by poor maternal nutrition: Roles of inflammation, metabolism, and oxidative stress"

SEPT 15

Karen More
IACUC Program Manager, UConn
IACUC re-training

SEPT 22

ANSC Fall 2017 Who's Who Meet and Greet

SEPT 29

David Cavallaro
Biological Health and Safety Manager, EH&S, UConn
Blood-borne pathogen re-training

OCT 6

No Seminar

OCT 13

Dominique Martin, MS Student
Department of Animal Science, UConn
"The effect of poor maternal nutrition on muscle metabolism in lambs"

OCT 20

Dr. Sivapriya Vanaja, Assistant Professor
Department of Immunology, UCHC
"Bacterial modulation of innate immune responses"

OCT 27

Jingyue Duan, PhD Student
Department of Animal Science, UConn
"X chromosome dosage compensation and genomic imprinting in domestic ruminants"

NOV 3

Mary Wynn, MS student
Department of Animal Science, UConn
"The Effects of Poor Maternal Nutrition during Gestation on the Number of Pax7(+) Myogenic Progenitor Cells"

NOV 10

David Cavallaro
Biological Health and Safety Manager, EH&S, UConn
"Biosafety Hood Operation – Do's and Dont's"

NOV 17

Dr. Clayton McCook, Associate Veterinarian
Equine Sports Medicine & Surgery, OK
"Nature's Fury: Response to the 2013 Oklahoma Tornado Outbreak"

NOV 24

No Classes- Thanksgiving Break

DEC 1

Arielle Halpern, MS student
Department of Animal Science, UConn
"A survey of New England Sheep Producers"

DEC 8

Deepa Kuttapan, PhD student
Department of Animal Science, UConn
"A role for probiotics in the management of chronic inflammation"
